## EDUCATION

### Bachelor of Engineering in Computer

Darshan University, Rajkot

05/2019 - 05/2023

7.43 CGPA

### Higher Secondary School

Shree Ambika Science School

05/2017 - 05/2019

92.48 PR

## WORK EXPERIENCE

### SOFTWARE ENGINEER INTERN

Weybee Solutions

06/2022 - 04/2023

Rajkot, India

#### Achievements/Tasks

- Led the frontend development for a key client project, delivering a fully functional Angular application on time, resulting in a 20% boost in client satisfaction.
- Built responsive, dynamic single-page applications (SPAs) using Angular, leading to a 35% increase in user engagement.

### SOFTWARE ENGINEER

Evolution Infosystem

06/2023 - 09/2023

Rajkot, India

#### Achievements/Tasks

- Improved performance of Angular applications by implementing lazy loading, AOT (Ahead of Time) compilation, and optimized change detection, reducing load times by 35%.
- Improved performance by optimizing the use of change detection strategies, decreasing CPU usage by 20%.

### SENIOR SOFTWARE ENGINEER

Epic Developers

11/2023 - Present

Rajkot, India

#### Achievements/Tasks

- Designed and implemented custom ERP features to meet client-specific requirements, enhancing user productivity by 25% for key clients.
- Mentored a team of 5 junior engineers, providing guidance on ERP module development, code optimization, and best practices, improving team productivity and code quality.

## ACHIEVEMENTS

Code-A-Thon -2nd Runner Up

It a district level coding competition organized by GTU.

## INDUSTRY PROJECTS

kamara Jewellery Store (09/2022 - 11/2022)

- Technologies: Angular, Bootstrap, RestAPIs, Typescript.
- Online jewellery shop is basically used to build an application program which help people to find and buy latest design of jewellery with different categories like Gold, Silver, Diamond. It is useful in the way that it makes an easier way to buy products online.

Social-Sparsh (Saas Platform) (11/2022 - 05/2023)

- Technologies: .NET web API, Entity framework, Identity framework
- Image processing is concerned with processing of an image. Image processing is a method to perform operations on images like enhancing images, extracting text from image, detecting edge of image and many other operations. In digital image processing we take an image and convert that image in different forms

Online Course Hosting (06/2023 - 09/2023)

- Technologies: Angular, RxJs, Firebase, Nest Js.
- The goal of this project is to create a platform for hosting online courses. The platform will allow users to create, share, and take online courses. The platform will also provide features such as video streaming, discussion forums, and quizzes.

ERP Software (11/2023 - Present)

- Technologies: Angular, SQL, C#.
- The project involved the development, customization, and implementation of a comprehensive Enterprise Resource Planning (ERP) solution aimed at streamlining and automating key business processes across various departments, including Finance, Human Resources, Inventory, Transport, Sales, and Customer Relationship Management (CRM).
